a K per tile
tile row (1-40)
tile column (1-57)
K (wt%)
b Spatial autocorrelation
offset down column (tiles)
offset along row (tiles)
contours 0.1, 0.2, 0.3
correlation (CLR)
c Directional semivariogram
normalised semivariance (CLR)
uncorrelated
along rows
down columns
lag (tiles)
d Variance of row/column means
random arrangement (95%)
row means
column means
variance / random expectation (wt%)
